Continued Prosecution Application

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/3/2006 has been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles J. Kulas on 05/10/2006.

3. The application has been amended as follows:

Claim 8 has been replaced with following amended claim 8.

A method for using multiple disconnected display screens in a computer generated presentation, the method comprising:

indicating to a human user preferred three-dimensional positions for two or more display screens;

rendering views for the two or more display screens in accordance with the preferred three-dimensional positions; **and**

accepting signals from a user input device to modify a preferred three-dimensional position of at least one of the two or more display screens.

Claim 18 has been cancelled.

REASON FOR ALLOWANCE

4. Claims 1-8, 21-28 is allowed. Claims 9-20 have been cancelled.

5. The following is an examiner's statement of reason for allowance:

The prior art fails to teach or suggest a method for generating display information, the method comprising the following steps performed by one or more digital processors determining three-dimensional positions in space of multiple display screens; and generating display information for the display screens by using the determined three-dimensional positions so that different portions of a single scene are displayed upon multiple display screens at the same time to provide a coherent view of the scene from at least one viewpoint as claimed in claim 1.

The prior art fails to teach or suggest a method for using multiple display screens in a presentation, the method comprising first sensing three-dimensional the positions of a plurality of display screens at a first time; providing the first sensed three-dimensional positions to a digital processor for rendering views for the plurality of display screens in accordance with the first sensed three-dimensional positions; sensing three-dimensional

positions of the plurality of display screens at a second time; and providing the second sensed three-dimensional positions to a digital processor for rendering views for the plurality of display screens in accordance with the second sensed three-dimensional positions as claimed in claim 5.

The prior art fails to teach or suggest a method for using multiple disconnected display screens in a computer generated presentation, the method comprising:

_____ indicating to a human user preferred three-dimensional positions for two or more display screens;

_____ rendering views for the two or more display screens in accordance with the preferred three-dimensional positions; and

_____ accepting signals from a user input device to modify a preferred three-dimensional position of at least one of the two or more display screens as claimed in claim 8.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
